LIST OF AGENCIES SORTED BY AGENCY CODE

The agency codes listed in this appendix are the "Primary Agency Code" for each statutory organization within the Arizona Financial Information System (AFIS). An Agency Code is required for every statutory organization. Establishing this code in AFIS is a pre-requisite to setting up the accounting structure for the agency. All accounting transactions posted to various agency's accounting elements ultimately roll up to the Agency Code. The Agency Code is also used in AFIS security setup to provide agency's personnel with access or restrict their access to various AFIS functions. The following list is sorted by AFIS Agency Code and the Human Resources Information Solution (HRIS) Agency Code.
